

Digital Literacy for Students

What is Digital Literacy?

- Ability to use digital tools and technology effectively
- Helps in learning, communication, and problem-solving
- Important skill for students in the modern world

Useful Digital Tools

- Google Docs – for assignments and notes
- GitHub – for coding and project sharing
- Canva – for presentations and designs
- Zoom/Meet – for online classes and meetings

Safe Internet Practices

- Use strong and unique passwords
- Do not share OTPs or personal information
- Avoid clicking unknown links or emails
- Keep your devices updated and secure

Professional Online Presence

- Create a LinkedIn profile
- Use formal and clear email communication
- Share achievements and projects online
- Maintain a positive digital footprint

Why it Matters?

Digital literacy helps students learn better, stay safe online, and build career opportunities. It allows effective use of technology and improves communication and skills needed in today's digital world.
